What is Exploring Agile Testing

More and more organisations work with an Agile approach. This means that Testers need to do their jobs in a different way. In this training you will get a virtual 'Toolbox' which shows you different approaches, tips and tricks.

To get to the core of Agile Testing, this training contains a mix of theory and practice. There is enough room for questions and discussions. The training contains 8 modules each taking 2 hours. The following modules will be discussed:

- Introduction Agile & Agile Testing
- Exploratory Testing
- Test Automation
- Definition of Done
- Knowledge Management
- Visualise Your Testing Efforts
- X-DrivenDevelopment
- Context-Driven Testing & Rapid Software Testing

Who should attend Exploring Agile Testing

Are you now or will you be working as a tester in an Agile development team? Then this training is for you! You get to tips, tricks and see different approaches.

You will also get to know tools that you can use in the future.

Even if you are a developer (or in a different role) in an Agile team, but you still have to test a few things, this is an interesting training course for you.

Prerequisites

For this training it is useful if you have some knowledge of testing and system development. However, this is

not a hard requirement.

Objectives

The training consists of 8 modules. Each module takes approximately 2 hours. At the end of the training you will be familiar with the following topics:

- Introduction Agile & Agile Testing
- Exploratory Testing
- Test Automation
- Definition of Done
- Knowledge Management
- Visualize Your Testing Efforts
- X-Driven Development
- Context-Driven Testing & Rapid Software Testing
