What is Design Essentials

This one day training provides you the essentials of design. You become aware of the design aspects in your role in a development team.

After this training you know the different models, which are used in design, understand the agile application of models, understand how each model helps to shape the final solution.

Various models are discussed in the training such as

- CADM (Chief Architecture & Data Management) layers structure, especially the layer 2:Application
- Process model (in BPMN) and conceptual data model
- A system in its context (context diagram)
- Use case model and class model
- Technical design model such as UML sequence diagram, UML state transition diagram
- DevOps in design, IT4IT and service thinking
- Mapping on design of user stories
- Design thinking

Who should attend Design Essentials

Designers, members of an (scrum) development team, everyone who wants to know more about design aspects.

You already have followed a scrum course and know what Agile working is.

Prerequisites

You have followed a scrum training and know what Agile work is

During this training you need a laptop with access to internet.

Objectives

- Know the different models that are used in the design
- Insight into the flexible application of models
- Understand how each model helps shape the final solution

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
