Dayparts	4
Price	€1.400,00 excl. VAT No extra costs.

What is Managing Successful Programmes (MSP®) Foundation

Changes within organizations are increasing. Only managing projects is not enough. To achieve the strategic objectives of the organization must be in control of change. If we are talking about balancing the use of scarce resources between 'Run the Business' and "Change the Business". Then we are talking about program management.

Managing Successful Programs (MSP®) helps you break down complex change processes into manageable projects and other activities. With MSP you can define a vision for your program, shape and control your program. This is all supported by a set of principles, processes and themes that have been developed based on years of experience in Program Management.

MSP 5th edition comes from Axelos and is fully compatible with other methodologies and frameworks such as PRINCE2® and PRINCE2 Agile ®. The fifth edition of MSP responds to a number of developments in the world of program and project management, such as agile working.

Who should attend Managing Successful Programmes (MSP®) Foundation

This training is intended for people who want to find out more about the steering, managing and supporting of programmes.

You work, for example, in the role as:

- Program manager
- Senior Projectmanager
- Senior PMO

Prerequisites

The participants are expected to be highly experienced in Project Management and or have experience in Program Management. Also, the participants are expected to have thorough knowledge of PRINCE2®. During this training you need a laptop with access to internet.

Objectives

Changes within organizations are increasing. Only managing projects is not enough.

To achieve the strategic objectives of the organization must be in control of change.

If we are talking about balancing the use of scarce resources between 'Run the Business' and "Change the Business". Then we are talking about program management. Managing Successful Programmes (MSP®) helps to break up complex change into manageable projects and other activities.

With MSP you can define a vision for your program, shape your program and manage it.

All this is supported by a set of principles, processes and themes that have been developed based on years of experience in program management. MSP comes from Axelos and is fully compatible with other methodologies and frameworks such as PRINCE2®.

About Capgemini Academy

Capgemini Academy's professionals offer what people in IT need. Our professionals have a keen eye for motivation, talent and are aware of specific contexts and circumstances. They move people to move. Programmes and courses that originate from daily experience of our both didactical and substantively strong trainers, light a fire within the individual IT professionals. Real life stories of our professionals' experience that tell how to solve problems and work with the people around it, do the rest.

An organization, like ours, helps people and their organizations day by day to get the best out of themselves and each other. We prepare them to defy tomorrow's challenges. We stimulate learning and curiosity. In order for individual IT professionals and their employers, to build better, longer and more intensive relationships. For mutual benefit.
