

Introduction SQL (NL)

Group Training

Training code	CGAINSQLCD
Spoken Language	Dutch
Language Materials	English
Dayparts	2
Price	€800,00 excl. VAT No extra costs.

What is Introduction SQL

Do you have no knowledge of SQL yet, but are you curious? Or have you already worked a bit with SQL, and would you like to know more about the basics? Then this training is for you. In this training you will be prepared in 1 day to query a database in a basic way. Retrieving data from multiple tables, filtering on conditions, grouping data; it's all covered in the training Introduction SQL.

You will be introduced to terms such as

- SQL Statements SELECT & INSERT
- WHERE clauses
- SQL Statements UPDATE & DELETE
- Aggregate
- JOIN Statements
- Create & manipulate tables
- Constraints

At the end of the day, students are challenged to apply what they have learned in the form of an SQL Challenge.

During the training, the application of what you learn is central and you are challenged to get started with the theory in practical cases. The training is given by people who work with SQL in practice and know what it is about. They want to pass on that practical knowledge.

Who should attend Introduction SQL

The Introduction SQL training is suitable for:

- People who need to consult data to do their job
- Starters at the beginning of their career
- People who make a career switch to a data role
- Business Analysts

- Information Analysts
- Data Engineers
- Data Managers

Prerequisites

There are no specific requirements to participate in this training.
During this training you need a laptop.

Objectives

At the end of this training, the participant will be able to use SQL to:

- Consult tables
- Set up conditions so that only the relevant data from a table can be viewed
- Merge data from different tables
