What is TOGAF® Enterprise Architecture Practitioner

Each Enterprise Architecture team provides support in selecting the most effective improvement and guiding the resulting change. To deliver, every Enterprise Architecture team faces the same challenges:

- How to configure their method of developing Enterprise Architecture
- How to document their enterprise architecture
- How to ensure that the implementation conforms to the architecture
- How to ensure that architecture remains a continuous process.

The TOGAF standard provides the common concepts, structure and enduring best practices to help Enterprise Architects perform.

TOGAF® Enterprise Architecture Foundation and TOGAF® Enterprise Architecture Practitioner provide you with the certifications to show you master these challenges.

The Applied Practitioner Open Badge is awarded to individuals who pass their exams and have satisfactorily completed the TOGAF Enterprise Architecture Practitioner Learning Studies.

This Practitioner training gives you insight into the operation and application of the framework and prepares you for the Practitioner exam.

Who should attend TOGAF® Enterprise Architecture Practitioner

This training is specifically aimed at:

- Professionals who apply the TOGAF approach to develop, implement, maintain and transform domain architectures
- Professionals who actively contribute to the transformation of the organization
- Professionals who work in Agile environments and need to understand and apply Enterprise

Architecture

You must have completed the TOGAF Enterprise Architecture Foundation training prior to this training. The training teaches you to set up and develop Enterprise Architecture based on the TOGAF EA framework and provides all the theory to study for and pass the TOGAF EA Practitioner exam.

Prerequisites

You must have completed the TOGAF Enterprise Architecture Foundation training for this training . During this training you need a laptop with access to internet.

Objectives

In the TOGAF® Enterprise Architecture Practitioner training you deepen the knowledge and understanding of Enterprise Architecture that you have gained in the Foundation training. In addition, we discuss the application in practice based on the the TOGAF Standard, 10th Edition.

When you pass the exam, you are certified and you have knowledge and insight to contribute within your organization by applying the TOGAF standard. You can schedule this exam at your own convenience and it is part of the training price.

After the training you will have the following competences:

- A common language with TOGAF users
- An extensive knowledge of the TOGAF approach to Enterprise Architecture
- The qualification required to obtain an Applied Practitioner Open Badge, after passing your Practitioner exam.

In addition to the theoretical background, the trainer gives examples of the practical application of the TOGAF frameworks and there is room for discussion about the application.
