What is Managing Successful Programmes (MSP®) Practitioner e-learning

Managing Successful Programmes, or MSP®, just like PRINCE2® is part of the Axelos portfolio. As a governance model for programmes, MSP® connects seamlessly to PRINCE2®. Have you already earned your MSP® Foundation certification, and gained knowledge and experience with MSP® programme management? Then you can easily join our Managing Successful Programmes Practitioner training. The main objective is to enable you to apply the method in practice. With this training you are well prepared for the MSP® 5th edition Practitioner Exam.

During the training we go through the method carefully, we practice applying the methodology on scenarios and real-life situations and we practice the style of questions (Objective Test) of the MSP® Practitioner exam. During the training, the application of the MSP® knowledge is key. Contribution of your personal examples and experiences is necessary to increase the understanding of the applicability of the method.

Who should attend Managing Successful Programmes (MSP®) Practitioner e-learning

The participants are expected to be highly experienced in project management and or have experience with program management. In addition, the participants are expected to have knowledge of PRINCE2® and MSP® Foundation.
